SIDMOUTH URBAN DISTRICT COUNCIL
ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH
YEAR ENDING 31st DECEMBER, 1951

To the Chairman and Members of the
Sidmouth Urban District Council.

Mr. Chairman and Members,

I have the honour to present the Annual Report on the public health of the Urban District for the year ending 31st December, 1951.

The report conforms as closely as possible with the requirements laid down in the Ministry of Health Circular No. 2/50, dated 25th January, 1950.

SECTION A.

Statistics and Social Conditions of the Area.

Area	11,475 acres
Number of inhabited houses ...	3,290
Rateable Value	£110,461
Sum represented by a penny rate	£440. 15. 1.53d.
Population	9,795

Vital Statistics

	<u>Total</u>	<u>Male</u>	<u>Female</u>
Live Births (Legitimate)	98	52	46
Live Births (Illegitimate)	11	4	7
Birth rate per 1000 of the estimated resident population	= 11.13		
Still Births (Legitimate)	2	2	-
Still Births (Illegitimate)	-	-	-
Rate of still births per 1000 total (live and still births)	= 18.01		
Deaths	180	86	94
Death rate per 1000 of the estimated resident population	= 18.37		
Deaths from puerperal causes	= 1		
Deaths of infants under 1 year of age (Legitimate)	2	1	1
do (Illegitimate)	-	-	-
Deaths of infants under 4 weeks " (Legitimate)	2	1	1
do (Illegitimate)	-	-	-
Death rate of all infants per 1000 live births	= 18.34.		
Deaths from Cancer (all ages)	32		
Deaths from Measles	nil		
Deaths from Whooping Cough (all ages)	nil		
Deaths from Diarrhoea (under 2 years of age) .	nil		

SECTION B. General Provision of Health Services.

(a) Council Officials, Health Department

Medical Officer
Sanitary Inspectors

E.L.Perry D.S.O., D.P.H.,
Stanley T. Chard, M.S.I.A.,
C. Rodgers, M.S.I.A., (to 31.3.51.)
E.P.Bennett, (from 1.8.52)

(b) (i) Laboratory Facilities: These are provided by the Public Health Laboratory Service, Exeter.

(ii) Ambulance Facilities: All ambulance facilities are provided by the County Council.

1. WATER

(i) The water supply of the area has been satisfactory in both quantity and quality, excepting the supply of Salcombe Regis which is a private supply. The Consulting Engineers are still considering the possibilities of an alternative supply in this case.

(ii) Altogether 47 samples were taken for bacteriological examination and two for chemical examination. All supplies bacteriologically examined after chlorination have been entirely satisfactory. The bulk of the Council's supply is chlorinated. The two chemical analyses made were satisfactory. The number of bacteriological analyses made has been large this year owing to the prospect of the new scheme for chlorination being undertaken in the near future.

(iii) The supply from all springs which yield plumbo-solvent water is passed through beds of limestone chippings.

(iv) There are 3290 dwelling houses in the area, of which 3276 are supplied direct from the mains. The remainder (24) are fed by standpipes and these are mainly in the Parish of Sidbury, which has a private supply maintained by the Sidbury Manor Estate.

2. DRAINAGE AND SEWERAGE.

Much attention is being paid to the matter of pollution of the River Sid. Every source of pollution, such as overflows from septic tanks, etc. are being sought out and examined. This is important in view of our suspicion that the sewer which passes close to the River on the west bank may possibly be a source of danger to the River.

3. RIVERS AND STREAMS.

I have nothing further to add to my observations in the preceding paragraph.

4. (i) Closet Accommodation

See Sanitary Inspector's Report.

(ii) Public Cleansing

The refuse collection is under the control of the Surveyor and is satisfactory.

(iii) Sanitary Inspection of the Area

See Sanitary Inspector's tabular statement.

(iv) Public Conveniences

Great attention is being paid to these owing to the large increase in the day by day visitors to the town and all necessary steps are being taken to maintain their upkeep and condition to deal with the increasing use of them.

(v) Shops and Offices

See Sanitary Inspector's tabular report.

(vi) Camping Sites

- (a) The number of sites used for camping purposes during 1951 was two.
- (b) The number of licences in respect of camping sites issued by the Local Authority under Section 269 of the Public Health Act, 1936, was two.

(vii) Smoke Abatement

See Sanitary Inspector's Report.

(viii) Swimming Baths and Pools

There are no swimming baths or pools in the district.

(ix) Eradication of Bed Bugs.

No cases were dealt with during the year.

5. SCHOOLS.

No change to report.

SECTION D.

Housing.

With the progress in housing it is now possible to issue a certain number of Closing Orders on very bad property.

SECTION E.

Inspection and Supervision of Food.

I have noted that there is a very considerable quantity of European tinned ham that has to be condemned, this appears to be due to the failure to provide such bulky food with conveyors that will stand up to the transport.

SECTION F.

Prevalence of and Control over Infectious and other Diseases

<u>Disease.</u>	<u>Total Cases Notified</u>	<u>Cases admitted to Hospital</u>	<u>Deaths</u>
Erisipelas	2	-	-
Scarlet Fever	6	2	-
Measles	17	-	-
Paratyphoid Fever	2	2	-
